*"THE SOUL WOULD HAVE NO RAINBOW, HAD THE
EYE NO TEAR"*

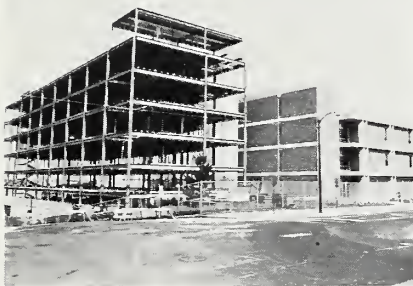

Malcolm James McLeod

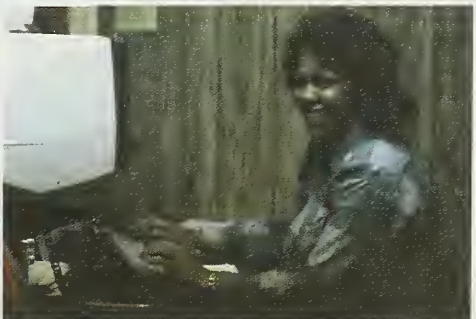

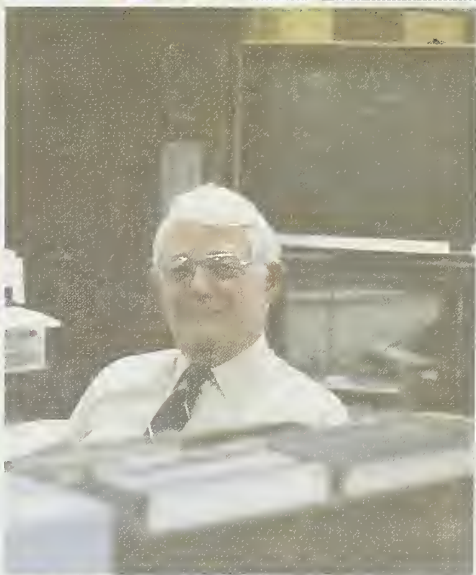

Mr. McLeod began working as a machine shop teacher in the New Hanover County school system in 1937. He became a school counselor of the Wilmington Industrial Education Center when it was founded in 1958, and was later named associate director. In 1963, he rose to the position of acting director of the Center. One year later, the WIEC was renamed "Cape Fear Technical Institute", and Mr. McLeod was installed as it's first president. He remained president of CFTI until his retirement in 1985.

Mr. McLeod had a desire to see that everyone have an opportunity to acquire a better quality of life through high-paying technical jobs. He realized that eighty percent of the available job market would require specific training, and he wanted to see that the students of CFTI achieved success in today's job market. To that end, CFTI provided the most up-to-date vocational and technical training available.

This caring and generous man has left each student that enters the doors of Cape Fear Community College a legacy of excellence that will enable each of us to fulfill our dreams. That legacy is Cape Fear Community College.

It is to his memory and his legacy that we dedicate the 1989 Bridge. Thank you, Mr. McLeod. We will miss you.

STUDENT LIFE

STUDENT

Student Life. It's more than just classes and tests. It reaches beyond academics. It includes clubs, student government, outside workshops, visiting artist concerts, business seminars, and participating in the full spectrum of activities here at CFCC. The purpose of higher education is to produce a well-rounded student, one who can do more than read, write, and do math. It is the intention of Cape Fear to send out into the world a person who has been exposed to the finest this school has to offer, and who has taken the opportunity to grow and expand their abilities to their fullest ...

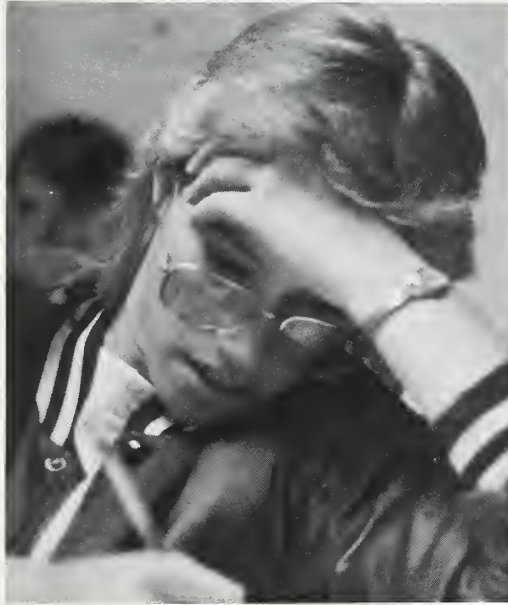

Not all studying is done in the classroom ...

There is such a thing as too much Student Life ...

"And if you help me through this test, I promise to be a better person."

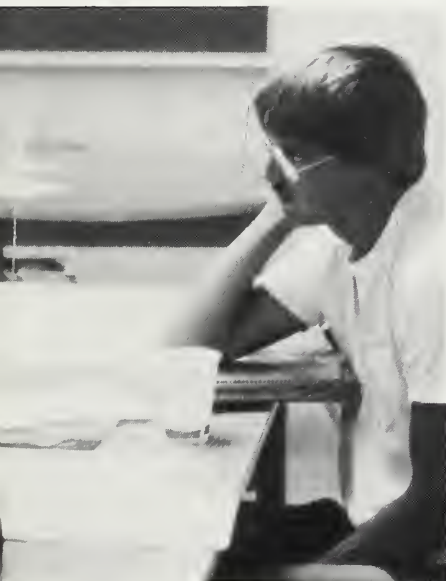

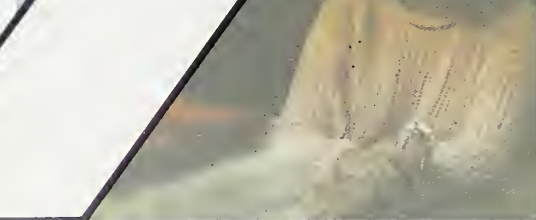

Sha Brady prepares for another of Mr. Bailey's exams.

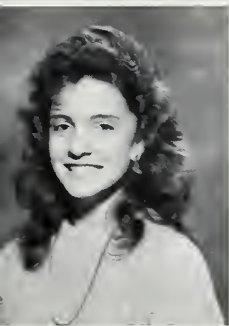

Dom DeLuise discovers his long-lost son, Jim.

A photograph of a sunset over a body of water. The sun is low on the horizon, creating a bright orange and yellow glow that reflects on the water. The sky is a mix of orange, yellow, and blue. In the background, there are silhouettes of trees and what appears to be a bridge or a set of stairs leading into the water. The overall mood is peaceful and reflective.

The rainbow.
The Bridge between heaven and earth,
containing all of the colors in the spectrum,
God's promise to man.

Legend says that at the end of a rainbow
there's a pot of gold.
But the treasure at the end of this bridge
is memories.

From orientation to graduation, we have met
a full spectrum of people.
Classmates, advisors, friends, teachers, studypartners,
administrators, maybe even a romance or two,
we recall them all.

From the first shy "hello" to the last teary "goodbye",
through late nights, early tests, studying during breaks,
sacrificing our social life for our grade point average,
we have fought our way to reach this, the end of this rainbow.

But at the end, there is a new beginning, a new bridge,
bigger, brighter, bolder, more radiant,
and it is the most important rainbow of all.
Life.

What a wonderful year it has been! I have enjoyed being the yearbook Editor. I would like to thank some people for working on the yearbook. Angella Barber for advertising and photography, Sharon Austin for advertising; Diane Henson and Duane Maxwell for their photography; Mike Gautier for photography, developing our black-and-white photos, and putting up with me and "We need this photo yesterday!"; Bill Miller for personally doing custom art work for the yearbook; and Toby, Tigger, Mai Ling and Diamond Duchess for sitting on the pages when I needed to take a break! Also, thanks to Cape Fear Camera for developing our colorphotos, Harvey Monk, our yearbook representative, for having the patience to put up with the madness, and Josten's publishers for printing the 1989 Bridge. And last but not least, Kevin Yates. Thanks, Kevin, for being there through this whole yearbook, and telling me to take a deep breath when I almost lost my temper!

Congratulations to the graduates of Cape Fear Community College. I wish you the best, and the most out of life in the future.

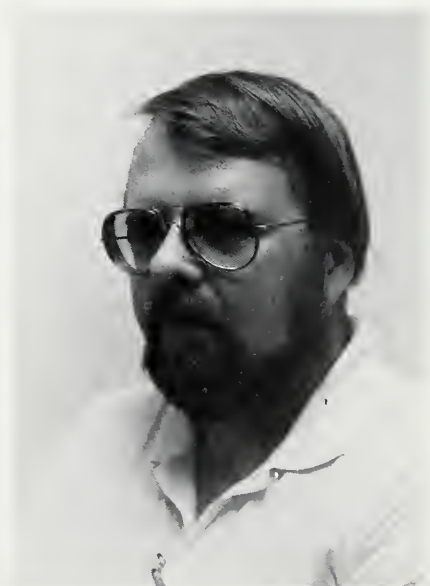

Patience Willis
Editor
The 1989 Bridge

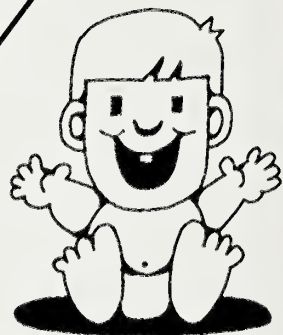

It has been a sincere pleasure for me, serving as the chairperson of Student publications for 1988-1989. I would like to take this opportunity to recognize and thank a few people who made my job a little easier: Mr. Carl Malpass, for his support of Student Publications; Patience Willis, editor of The 1989 Bridge and Lisa Wright, editor of the SeaDevil 88 and 89, for stepping in when they did and showing such dedication and determination; Mr. Ed Higgins, for understanding when I was late for a class or two (or ten); Mike Gauter and his superb photography staff, without whose help there would not have been a yearbook; The staff of both the SeaDevil and The Bridge, for their drive and creativity; Shaleen Brady, for her inspiration; Charlotte Adams and the members of the Student Government Association, for funding, interest, and concern; especially to all of the Students, Faculty, Staff, and Administration of Cape Fear Community College, for standing still long enough during your busy days so we could take your picture; and most of all, to Rick Stewart, who said "you can't do that!" and then showed me how it could be done. Thanks, Rick!

Congratulations to the graduating class of 1989. Crossing that bridge has been a long hard struggle. I hope that this yearbook will remind you of the fun you had along the way. And to all of you out there who are still waiting to take that walk ...

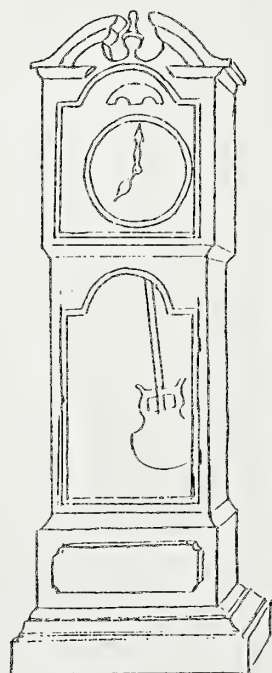

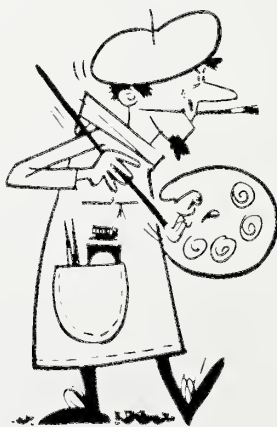

Smile! You're on Yearbook Camera!
